

ILLINOIS.

PROCEEDINGS

OF

A MEETING OF INHABITANTS OF MORGAN COUNTY.

Asking a restoration of the Deposites to the United States Bank.

MAY 19, 1834.

Read, and laid upon the table.

JACKSONVILLE, April 5, 1834.

The meeting notified to be held this day was called to order by Charles Beggs, Esq. and, upon his motion, William Orear, Esq. was called to preside, and, upon motion, Messrs. Charles Beggs and Elijah Adams were appointed Vice Presidents; Messrs. O. P. Cobb and E. G. Miner were elected Secretaries.

J. Lamborn, Esq. briefly stated the object of the meeting, and moved that a committee be appointed to prepare resolutions expressive of the sense of the meeting. Whereupon, the President appointed the following gentlemen, viz. Samuel M. Prosser, James Deaton, Alexander Wells, Alexander Beall, Allen Q. Lindsay, James Morrison, John Sappington, Wm. K. Layton, James Green, and Josiah Lamborn. The committee, after retiring for a short time, reported the following resolutions:

Resolved, That we view the constitutionality of a National Bank as clearly settled by the sanction of the framers of the constitution, by the approbation of different Presidents of the United States, by the repeated decisions of Congress, by the adjudication of the Supreme Court, and by the almost universal consent of the people for forty years.

Resolved, That while the uniform experience of all the officers engaged in collecting and disbursing the revenue proves a National Bank to be an indispensable agent of the Government, the experience of the people proves it to be no less necessary for the purpose of providing an equal and sound currency, supplying a safe and convenient medium of exchange, and restraining the circulation of the local banks within their proper limits.

Resolved, That we consider the State banks as perfectly incompetent to preserve a uniform currency throughout a Government composed of twenty-four independent States, spread over as great an extent of country as is embraced by our confederacy, and that the currency of these banks, uncontrolled by a National Bank, would be attended with a degree of fluctua-

tion and uncertainty most disastrous to the agriculture, manufactures, and commerce of the country.

Resolved, That the evils which would result from this state of things would be particularly oppressive upon the new States, where there must necessarily be a scarcity of capital, and that our own State, from the unprecedented emigration which is at this time taking place, would be liable to be overrun with the currency of remote local banks, thereby subjecting our citizens to great inconvenience and loss.

Resolved, That, as the present Bank of the United States has its branches already established and in successful operation in every section of the Union, and has, from long experience, acquired that acquaintance with the system of exchange, and that knowledge of the wants, resources, and commercial operations of the different sections of the Union which are necessary to a safe and economical discharge of the duties expected from such an institution, and as the winding up of the concerns of this bank and the establishment of a new one must necessarily produce embarrassment, we would recommend a recharter of this bank, with such modifications and restrictions as to secure to the country all its present benefits, with the fewest possible number of its evils.

Resolved, That, as the removal of the depositories has been followed by an unexpected and severe pressure upon every branch of industry, not only in other sections of the Union, but also in our own State and vicinity, and as we believe the pressure would be relieved by a restoration of the harmony that ought to prevail between the different parts of the Government, we recommend that the depositories be restored to the United States Bank until the question of the National Bank shall be definitely settled by the General Government.

Resolved, That the proceedings of this meeting be published in the Illinois Patriot, the Jacksonville News, and the Beardstown Chronicle, with a request that editors throughout the State will republish them.

Resolved, That a committee of six be appointed to forward the proceedings of this meeting, together with the memorial heretofore circulated, to our Senators and Representatives in Congress, to be presented to both Houses of the National Legislature.

After some discussion, in which several gentlemen took part, the resolutions were unanimously adopted. The President then appointed the following gentlemen as a committee to forward the proceedings, according to the last resolution: Samuel D. Lockwood, A. H. Buckner, Waller Jones, J. J. Hardin, S. M. Prosser, and M. M'Connel; when,

Upon motion, the meeting adjourned.

WM. OREAR, *President.*

ELIJAH ADAMS,
CHARLES BEGGS,

Vice Presidents.

O. P. COBB,
E. G. MINER,

Secretaries.

We, the undersigned, citizens of Morgan county, Illinois, would respectfully memorialize the Congress of the United States upon a subject deeply

interesting to us, and involving, in our opinion, the present prosperity of the nation. The subject to which we allude is the present deranged state of the currency, consequent, as we believe, upon the recent removal of the depositories.

Public sentiment, expressed by large and numerous meetings of the people in all quarters; the memorials which have been addressed to your honorable bodies by persons of all classes and parties; the many and extensive failures at the East; the closing of our manufactories; the inability of men of business to pay wages to laborers; the want of confidence in the commercial community; the pressure felt in our own immediate neighborhood; all, in a language not to be misunderstood, tell of the present deranged state of the currency, and speak ominously of a day of still deeper embarrassment, in which the farmer, the mechanic, the merchant, the whole community, (the money lender excepted,) will suffer. In virtue of the premises, without regard to party, we deem it a solemn duty to endeavor to avert the ruin which threatens the nation, and which, if not immediately averted, will fall with a stroke, none the lightest, on our own Illinois. Therefore, we call the attention of Congress to the present deranged state of the currency; to all the ills consequent thereupon, not passing by the pressure already experienced in the "far West;" and respectfully solicit relief, and suggest the restoration of the depositories and the recharter of the United States Bank, with modifications, as the means most likely to restore confidence; again to call into action the energies of a free people, and secure the prosperity, the happiness, and liberty of the republic. We believe this to be a crisis in our history which calls loudly for redress. For relief, we now look to your honorable bodies, and we trust, fondly trust, that former prejudices will be sacrificed, and that all minor considerations will be lost in the noble resolve of the patriot's heart, to save his country from oppression, bankruptcy and ruin.

We respectfully request our Senators and Representatives in Congress to aid in promoting the views expressed in the above memorial.
